

LaShonda Cureton, PhD
Chemist in the Office of Food Additive Safety (OFAS) at the Food and Drug Administration (FDA), College Park, Maryland, USA

Dr. LaShonda T. Cureton is a Chemist in the Office of Food Additive Safety (OFAS) at the Food and Drug Administration (FDA). In this role, she is responsible for the review of pre- and post-market submissions for food contact substances and substances Generally Recognized As Safe (GRAS) as well as developing comprehensive summaries detailing scientific and regulatory recommendations and conclusions. Dr. Cureton also serves as a scientific advisory member of OFAS's Codex Food Additive Standards Team (CFAST) and has been instrumental in engaging other Codex delegations in Latin American and Africa. Dr. Cureton earned her doctorate in polymer organic chemistry from Virginia Polytechnic Institute and State University and a bachelor's degree in chemistry from Clemson University.
